

# RECYCLE YOUR Electronic Waste!

Your old, unwanted, or non-working electronic devices can be recycled! It's easy to do, just drop off any electronics for free at one of our convenient drop off depots in Windsor / Essex County (see February). Free for both residents and businesses.

## RESIDENTS & BUSINESSES - Drop Off:

- |                                                      |                                   |
|------------------------------------------------------|-----------------------------------|
| • Amplifiers                                         | • Printers                        |
| • Audio & video players & recorders (DVD, VCR, etc.) | • Radios / Receivers              |
| • Cameras                                            | • Scanners                        |
| • Cell Phones                                        | • Speakers                        |
| • Computers & Peripherals                            | • Telephones & Answering Machines |
| • Copiers                                            | • Televisions                     |
| • Fax Machines                                       | • Tuners                          |
| • Monitors                                           | • Turntables                      |
| • Pagers & PDA's                                     | • Video Projectors                |
